

# Flying Cars

By: Janelle Cox  
M.S. in Education

Technology  
Grades 9–12

## Introduction

As technology increases, the probability of flying cars may become a reality sooner than we expected. Students will write an essay explain the laws they think will need to be in place when this happens.

---

## Learning Objectives

Students will be able to explain the types of laws they think will be in effect for flying cars in the future.

---

## Materials Needed

none

---

## Procedure

Technology is growing at a rapid pace. In your lifetime you most likely will see a flying car. What types of laws do you think we will need to have in place with this invention? Where will these cars take off and land? What will be the speed limit? Be specific and give examples.

---

## Evaluation

Students will be assessed on how well they followed the guidelines for the writing prompt.
